

ABOUT

Spring Lighting Group is originally an OEM vertical manufacturer that has been producing luminaires for some of the industry's leading brands for the past 20 years and present. In the last decade, SLG decided to use its wealth of experience and knowledge to produce luminaires under its own SLG brand.

Manufacturing History

SLG manufactures its own housings, lenses, drivers, cases, and LED modules with Surface Mounted Diodes (SMD) technology to ensure they are of the highest quality.

Product Quality

Using only the highest quality components, combined with precision engineering and extensive testing, SLG has created luminaries that will stand the test of time, providing customers with lighting solutions they can trust for the long haul. Adding exceptional customer service, technical knowledge, and comprehensive warranties that prove SLG stands behind its products.

All SLG products are thoroughly tested and certified before going to market.
